NAME: GW-AM-070 Full automatic hook type winding machine

GW-AM-070 machine is a high-tech automatic loading and unloading winding and soldering machine, man-machine dialogue display screen and the nose and fixture of flexible replacement system combined with VU machine, by precision accessories and independently developed PLC system, powerful servo motor drive head, precision servo motor drive iron core. The user can use the machine through the simple setting of the operation technician. GW-AM-070 is suitable for special single wire and double wire winding specifications, precision winding, maintenance free, simple repair. This equipment is applicable to all kinds of ring coil material application manufacturing, the main components of the equipment are developed and

GREWIN INDUSTRIAL GROUP CO.,LTD.

Add: The fourth floor A-A3 zone aviation business area, Dongli Distr, Tianjin, China.

produced by the company, self-assembled, to ensure excellent quality and processing characteristics, the best production quality guarantee and a strong publicity effect for customers, improve your competitiveness in the domestic and international markets.

SPECIFICATION:

Applicable line diameter range	0.3-1.0mm
Minimum finish inner diameter	3mm
Maximum completion height	20mm
Maximum finish outer diameter	28mm
Jacket range	6-28mm

Technical parameter:

1. Controller: using autonomous programmable PLC
2. Memory: it can be programmed
3. Program setting: use touch screen human-computer dialogue simple numerical programming input setting
4. Winding speed: the maximum speed of 3000 RPM can set the upper and lower winding speed
5. Skeleton driver: the servomotor
6. Line distance control: the line distance is automatically adjustable
7. Skeleton adjustment: automatic adjustment
8. Skeleton reversal: automatic adjustment
9. Acceleration: automatic
10. Slow down: automatic
11. Winding operation: automatic loading and unloading winding
12. Head drive: servomotor 400 W
13. Tension control: adjustable (automatic tension is optional)
14. Operating voltage: 220V, 50 HZ
15. Machine size: 1550L 600W 1800H (mm)
16. Weight of the machine: 100Kg NET, 150KG Gross

PRACTICAL APPLICATION :

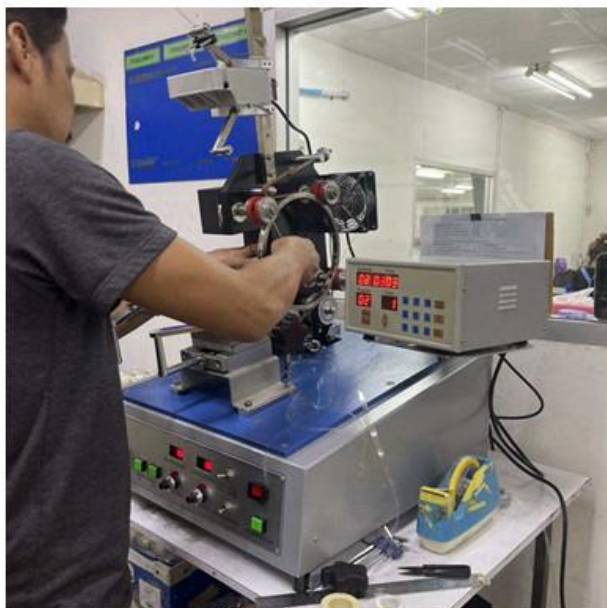

TRAINING CUSTOMER TO OPERATE WINDING MACHNE :

1.All service engineers with 10 years experience are gotten special technology training, who c an deal with various breakdown problem.

2.Guide the user to use accurately and how to maintain the Hook Type Transformer Winding Machine.

Provide free consultation about production process technology of electronic products.

3.In order to guarantee the machine used normally, we'd have training on how to operate, use and maintain our product by English manual, video, guiding on line.

PACKAGING:

Packaging Material: Carton/Wooden case with foam inside.

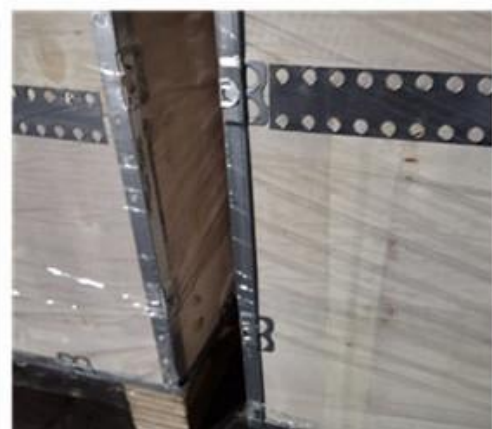

1.General package(Paper carton or plastic bag): For small equipped parts for Hook Type Transformer Winding

Machine, Package it with form and pack paper to guarantee unbroken during the transport.

2.Wooden case package: For larger scale Hook Type Transformer Winding

Machine,we have special skilled

carpenter, who would make the proper wooden case with exact thickness,density,length. The up arrow ↑marked on the outer wooden case. Buffer material would be put in the wooden case to prevent crack and shock.
